Allergens & Calorie Declaration and Matrix

Due to the nature of our business **we cannot** guarantee any of our food is suitable for those with allergies due to a high risk of cross contamination

It is important to inform our team of any allergies, intolerances or dietary requirements before placing your order in our café's or online/via an app. Not all ingredients are listed on the menu. While we have processes in place to prevent cross contamination, we cannot guarantee the total absence of allergens in our dishes due to the open nature of our cafes, in particular allergens such as **gluten**, **tree nuts, peanuts, soya and milk** due to their frequent use. Detailed information on the fourteen legal allergens is provided below, including "may contain" information from our suppliers, however we are unable to provide information on other allergens

E110 (Sunset Yellow FCF) is not classified as a major allergen under EU Regulation (EU) No 1169/2011 or U.S. FDA allergen labeling requirements. However, as it may be found in used ingredients, it is important to us to make you aware of the use, as individuals sensitive to azo dyes may experience adverse reactions.

Please locate the dish you want to order in the column on the left '*Category*' and then match with the allergens in the columns to the right to find what allergens your dish contains and/or may contain. Also calorie information is found in the second column next to each dish.

Although our team members are aware of our allergens, we occasionally change our recipes, therefore the most up-to-date allergen declaration is available below
